Hands-free and worry-free

The "Cloud" is about eliminating barriers and helping you concentrate on the important things your business needs to succeed.

Traverse Microsoft Cloud Hosting from Open Systems is the no-worries way to host your Traverse software while spending less money on IT overhead.

Simplified maintenance, updates, security, and deployment

An easy-to-budget fixed monthly price includes our Microsoft Cloud Hosting Service with Azure cloud server space for your Traverse software, coupled with our managed IT support.

Lower your up-front and ongoing IT costs while gaining the peace of mind of knowing that you have a Traverse certified IT team managing and maintaining your cloud servers and backups.

Rolling out Traverse to your employees has never been easier. Experience unsurpassed productivity when your employees can use Traverse anywhere, anytime to get their job done. Traverse Cloud eliminates connectivity concerns caused by multiple company locations or occasional work-at-home days.

Major Advantages with Traverse Cloud Hosting

· Shorter time to implement

· No risk of incompatibility or incorrectly configured server hardware

· Stable, scalable, and secure Microsoft Cloud (Azure) hosting

· Better sleep at night – let someone else worry about backups, updates, and security

· No added cost for Microsoft Server licenses, including SQL Server

· Traverse build update installation included

What's Included:

- Access to US-based Microsoft Data Centers (DOD Level 2 certified)

- Logins/access secured with 2048-bit encryption

- SQL Server – no need to purchase or upgrade your expensive SQL server license

- Nightly database backup to Microsoft cloud storage (more frequent or replicated backup options available)

- Cloud servers kept current with Traverse build updates, Microsoft updates and security patches

- Cloud support team availability for connection issues, login assistance, printing problems, new employee login set up, password reset, or login disabling

- Easy transfer of Traverse databases to the cloud SQL server

- Custom hosting models available, including hybrid deployment

- Office 365 Cloud (optional) Microsoft Word, Excel, and PowerPoint connects to your Traverse cloud server - no need to purchase, install or maintain local licenses on each PC

With Traverse Cloud Hosting, there's nothing standing between you and your productivity

We know that your priorities are your job and your business, not maintaining or managing servers. Let us handle your daily and monthly server tasks while giving you more time to focus on what's important. Instead of keeping your software on-premises, Traverse Cloud Hosting eliminates time spent maintaining servers, updating software, and keeping your server secure. Contact your software provider for more details, or visit www.osas.com.

Cloud Backup Pricing

STORAGE AMOUNT (GB)	MONTHLY PRICE ($/MONTH)	ONE TIME SETUP (HOURS)
25 GB	$60	2 – 4 hours
