OSAS Shipping Configuration Screen

The screenshot shows a Windows-style application window titled "Ship Method Control". It features a menu bar with "Commands", "Edit", "Modes", "Other", and "Help". Below the menu is a toolbar with icons for undo, redo, save, print, and help. The main area contains configuration fields for shipping methods. The "OSAS Shipping Code" is set to "UPSR" and the "Actual Ship Method ID" is set to "UPS2AM". The "UPS RESIDENT" label is displayed. Checkboxes for "Update S/O Freight?", "Residential?", and "Display on Web?" are present, with the first checked. Numerical fields for "Insurance Rate per \$100", "Multiplier", and "Minimum Charge" are set to ".00", "1.0000", and ".00" respectively. A "Round Prices to Nearest:" section has three radio buttons for "\$1.00", "\$.10", and "\$.01", with "\$.01" selected. The bottom status bar shows "Company 1", "05/04/2007", "Terminal T000", and "OVR".
